How to Play BRIDGE

Series 1927-28 by Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGE"

ARTICLE No. 18

A question that is always difficult to decide arises when the opponents have made a bid that you feel sure you can defeat and yet you have such great help for your partner's bid that you feel sure you can go game at his bid. Shall you double and play for the penalty or shall you help your partner's bid and try for game? The correct solution of this question is very difficult at times, but as a rule is governed by definite facts. When you are sure of game, don't double unless you are sure of 200 points. When you are sure of a rubber game, don't double unless sure of at least 300 points. These values may vary at times but as a rule they are the proper rules to consider when you have a chance to double your opponents or go game. The following hand is a good example:

Hearts-8, 6, 5, 3, 2 Clubs-J Diamonds-K, Q, 7 Spades-J, 8, 7, 3

No score, first game. Z dealt and passed, A and Y passed and B bid one no-trump. Z bid two diamonds, A and Y passed and B bid two no-trump. If Z now bid three diamonds, what should A do? Should he double three diamonds or bid three no-trump? It is reasonably certain that A can defeat the three diamond bid, and also that A-B can score game at no-trump. Z's bid of three diamonds, however, if sound—and there is no reason to believe otherwise—indicates a freak hand, probably eight or more diamonds headed by the jack, and at least one outside trick. If this analysis is correct, the three diamond bid would not be defeated more than two tricks. On the other hand, A-B should easily score game and thus have the better chance for the rubber. The winners of the first game have a three to one chance to win the rubber and this advantage is a very great one. For these reasons, A should bid three no-trump rather than double three diamonds.

Answer to Problem No. 19

Hearts—none Clubs—A Diamonds—7, 5, 4, 3 Spades—K, J, 8, 6, 5, 4, 3, 2 No score, rubber game. Z dealt and passed, A bid three spades, Y four clubs and B four diamonds. Z now bid five clubs, A five diamonds, Y six clubs and B six diamonds. Z doubled and all passed. Z opened the king of hearts which B trumped in A's hand with the trey of diamonds, Y playing the five of hearts. B now led the deuce of spades from A's hand, trumping in his own hand with the six of diamonds. On this trick, Y played the seven and Z the ace of spades. What deductions should B make from the bidding and the cards played on the first two tricks and then how should he play the play so as to make six odd? This is a very interesting problem, because it can be solved if the deductions made by B after trick 2 are those which are the most likely to be correct. Let us take them one by one.

- 1. A and B hold eleven diamonds. Y and Z hold two between them. As Z doubled "Six Diamonds," it is likely that he holds both, viz: the king and the deuce, and that Y is void in the suit. 2. Z played the ace of spades on the first round of the suit, although a trump had already been played by B. It is therefore a singleton, and Y holds four spades. 3. Z bid "One Heart." He, therefore, is likely to hold five. He would have pre-empted if he had held six. B has six hearts and A none. Y therefore has two. 4. Z's hand must therefore contain one spade, five hearts, two diamonds and five clubs. Y's hand holds four spades, two hearts, no diamonds, and seven clubs. 5. B hopes that Z holds A, K, Q, J, x of hearts. If so, he can make his contract. The following is the play: At trick 3, B leads the ten of hearts; Z covers, and A trumps. A leads the ace of clubs and B trumps. At trick 5, B leads the nine of hearts; Z covers, and A trumps. A then leads a spade and B trumps with the ace of diamonds. At trick 7, B leads the eight of hearts and A makes his remaining trump. Z can now make the king of diamonds, but no other trick. It may be that one of Y's two hearts is an honor—perhaps the jack—and if so, B solves the problem by trumping trick 3, whether Z covers or not.

At trick 3, B leads the ten of hearts; Z covers, and A trumps. A leads the ace of clubs and B trumps. At trick 5, B leads the nine of hearts; Z covers, and A trumps. A then leads a spade and B trumps with the ace of diamonds. At trick 7, B leads the eight of hearts and A makes his remaining trump. Z can now make the king of diamonds, but no other trick. It may be that one of Y's two hearts is an honor—perhaps the jack—and if so, B solves the problem by trumping trick 3, whether Z covers or not. This problem is of value in showing how a little clear thinking at the right moment (in this case when Z's ace of spades was played at trick 2) is all that is required to make a good player. The actual hands held by Y and Z are as follows:

Z's Hand: Hearts—A, K, Q, J, 2 Clubs—8, 7, 6, 4, 3 Diamonds—K, 2 Spades—none Y's Hand: Hearts—5, 3 Clubs—K, Q, J, 10, 9, 5, 2 Diamonds—none Spades—Q, 10, 9, 7

TORRANCE NOTES

Mr. and Mrs. Martin Lybrook of Huntington Park were the guests of Mrs. Anna Vonderhage at the Torrance Hotel, Easter Sunday.

Mr. and Mrs. Jack Barnes and family spent Easter with Mr. and Mrs. W. W. Johnston at their Escondido ranch.

Willard SERVICE

OUR is the best battery service in town—and it is real service for all makes of batteries. If car owners watched the condition of the charge in their batteries as carefully as they watch the air pressures in their tires, good batteries would average double their present life.

Wife Savers By NELLIE MAXWELL

HERE ARE SOME DESSERTS. A simple dessert easy to prepare and wholesome for children and grownups, is always a welcome addition to any menu.

Date Jelly Sponge.—Add two egg whites, beaten stiff, to a mild lemon jelly, adding one cupful of dates cut into pieces; beat until stiff, pour into molds and serve with the boiled custard. Apple Souffle.—Make a sauce of two tablespoonfuls of butter, three of flour, one-half cupful of milk and one cupful of baked apple or sifted apple sauce. Remove from the fire, add three beaten yolks, pinch of salt, sweeten to taste, add a little lemon juice, and the stiffly beaten egg whites. Turn into pastry-lined gem pans and bake twenty minutes. Serve with whipped cream garnished with cherries.

Cocanut Snowballs.—Mix beaten yolks with two tablespoonfuls of water, one tablespoonful of orange juice and one teaspoonful of lemon juice. Beat well and add two-thirds of a cupful of flour sifted three times with two teaspoonfuls of baking powder and one-fourth teaspoonful of salt. Fold in the stiffly beaten whites of the eggs. Pour into small moulds and steam one-half hour. Turn out on a plate of cocanut and powdered sugar, roll with two forks until well covered. Serve with fruit juice lightly thickened for sauce.

Pineapple Toast.—Boil for five minutes the liquor from a can of pineapple with one teaspoonful each of orange and lemon juice; thicken with a teaspoonful of cornstarch and pour over well-buttered triangles of toast. Serve garnished with pieces of pineapple, hot or cold. When it seems impossible to think of anything easy for dessert, try canned apricots, pears or peaches. Serve in sherbet glasses with a dab of whipped cream, a teaspoonful of lemon juice and a sprinkling of nuts. With a small cake or a cookie this makes a nice dessert. (Copyright, 1928, W. N. U.) A real plan service. Consolidated Lumber Co.—Adv.

LOCAL NOTES

Mrs. H. L. Hess and daughters of Poppy street enjoyed a picnic at Redondo Beach Friday.

Mr. and Mrs. J. G. Wilson and daughter Annor of Narbonne avenue were guests Sunday of Mr. and Mrs. J. C. Pierson of Long Beach.

Walter Van Derbecken of Los Angeles was a guest Sunday of his parents, Mr. and Mrs. Cyril VanDerbecken of Arizona street.

Miss Marion Crittenden of George street and Miss Lucille Canfield of Long Beach spent last week at Pismo Beach.

Mrs. L. A. Stump of Lucile street who has been ill for several weeks, is able to be out of doors for a short time each day.

Mr. and Mrs. L. C. Luok were entertained at dinner Sunday by Mr. and Mrs. J. L. Luok of 257th street.

Mrs. William H. Hearn and daughter Helen of Inglewood were Friday guests of Mr. and Mrs. O. H. Burnett of Redondo boulevard.

Mrs. Clyde Spears of Weston street returned Tuesday from a ten days' visit with her sister in San Diego.

Waldo Mallory of Pennsylvania avenue spent Sunday at the home of his aunt, Mrs. William Gasser.

Mr. and Mrs. H. N. Robb of 262d street visited Los Angeles friends Sunday.

CORRECT HUMIDITY The second of seven scientific reasons why ice is king of all refrigerants for the home....

THE HUMIDITY of moisture content of the circulating air in your refrigerator is of paramount importance in preserving your foodstuffs. This moisture content should vary with the temperature of the air. If the air is too dry it will take away too much moisture from your stored foods. This robs the foods not only of taste and natural juiciness but also of their food value. If the air is too moist it cannot absorb the moisture which the foods give off naturally—resulting in "stickiness"—which hastens mold and decomposition. ICE IS POSITIVELY THE ONLY FORM OF REFRIGERATION which, unaided and unregulated, supplies just the proper degree of moisture to the air stream in your refrigerator. The Ice Manufacturer does nothing to accomplish this unequalled performance. The attraction of moisture to Ice, and the variation of this attraction with every degree of temperature, is simply one of Nature's wonders—as certain and sure as the rising and falling of the tides. Ice does not supply artificial moisture to your foods—it simply regulates the moisture in the air to prevent the air from becoming too dry or too moist.

CHEVROLET USED CARS "with an OK that counts" Because we are delivering more new Chevrolets than at any other time in our history, we are offering a number of exceptional values in reconditioned used cars. Our used cars carry an official O. K. tag which is reproduced on this page. Attached to a used car by a Chevrolet dealer it signifies that every vital part of the car has been inspected, properly reconditioned and where worn, replaced by a new part. The outstanding feature of this plan lies in the fact that it enables anyone to select a used car with absolute confidence as to its satisfactory operation, and the price is absolutely fair and right. Reasons why you should buy your used car from a Chevrolet dealer: 1—Chevrolet dealers have been selected by the Chevrolet Motor Company on the basis of their financial responsibility and dependability. 2—Chevrolet dealers offer used cars on a plan originated and endorsed by the Chevrolet Motor Company. 3—Chevrolet dealers have the necessary modern tools and equipment to properly recondition used cars. 4—Chevrolet dealers desire the goodwill of used car buyers the same as they enjoy from new car buyers. A few of our exceptional Used Car Values "with an OK that counts" Special Six Studebaker Touring New Duco Paint, Good Mechanical Shape \$150.00 With an O. K.
